Skills

Frontend: React, Nextjs, Javascript, Tailwind CSS, Bootstrap, Responsive Design

Data & State: TanStack Query, Axios, REST API Integration

Backend (Learning): Node.js, Express.js, MongoDB

Tools: Git, GitHub, Vercel, Render, Figma

Projects

TechMart — Electronics E-commerce Platform,

05/2026 – 08/2026

React, Next.js, Node.js, Express, MongoDB, TanStack Query

- Full-stack e-commerce platform with authentication, cart, wishlist, order management, and an admin dashboard.
- Implemented centralized API handling with TanStack Query and Axios interceptors for automatic token refresh and error handling.
- **Live Demo** [🔗](#) | **Github** [🔗](#)

Football Club Management,

08/2026 – 09/2026

React, Next.js, TypeScript, Node.js, Express, MongoDB, Socket.io,

- Full-stack club management platform with a public website, role-based admin panel, and REST API covering squads, fixtures, standings, news, and academy.
- Implemented role-based access control across 7 roles, enforced in the API and mirrored in both the public site and admin panel.
- **Live Demo** [🔗](#) | **Github** [🔗](#)
